

NOTHING SAYS SERVICE LIKE A MONKEY WITH A JET PACK

Meet Dolby, our monkey with a jet pack.

Having a monkey on your truck demands that you be a bit extraordinary, and our customers experience that in our results, our attitude, and our delivery. Our Monkey represents the can-do attitude and ability that WDS Logistics delivers.

He really is a lot to live up to - and we do every day.

WDS LOGISTICS
WE DELIVER SERVICE 1966

**WE DELIVER SERVICE.
WE DELIVER VALUE.
WE DELIVER BUSINESS.**

DELIVERY & INSTALLATION

When a company is delivering your goods, everything—from the scheduling, to the delivery crew and truck, to the actual delivery or installation—reflects on you.

At WDS Logistics, we understand that, and we have spent more than 50 years perfecting our last mile delivery service. Our clients are Fortune 500 and small businesses in Texas, Oklahoma, Arkansas, and Louisiana. Our company-owned, air-ride suspension trucks are all equipped with lift gates and the tools and supplies needed to do the job right. Every service person is trained, uniformed, screened, drug tested, and employed by WDS. Each truck is insured and fitted with tracking and monitoring technology.

Whether it's large format printers and copiers, sensitive medical equipment, data server cabinets, or other high-valued products, we can design a delivery format that meets your needs, and the needs of your customers. Whether it's B2B or to customers' homes, clients can choose the service level that best fits their needs and their budget.

WHITE GLOVE SERVICE

Your products will be delivered and carried into the room of your customer's choosing. Product will be unpacked, connected/ installed to ensure operability, debris will be removed and some light assembly will be completed. Your products are delivered on schedule and in the condition promised.

ADDITIONAL LAST MILE SERVICES
